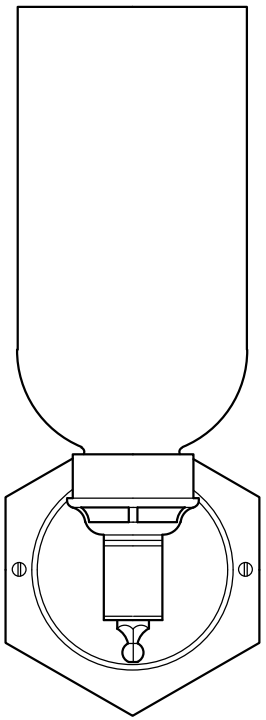
CHARLES EDWARDS

Instructions for Replacement Glass Shades : Stage 1
Information Required

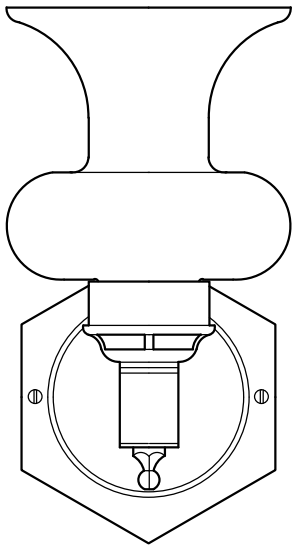
As our fixtures are hand made, small variations in size may occur. To ensure the replacement shade fits correctly, we shall require the following information:

a. The original order number and photograph of the fixture.
b. The style of Glass Shade i.e Osler, Palmer, Hurricane.
c. The type of glass i.e. Clear, Frosted, Half-frosted.
d. The finish on the Metal Receiver i.e. Nickel, Antique Brass. (see Stage 2 for how to locate the Metal Receiver)
e. The outer diameter and the height of the Metal Receiver. (see Stage 3 for how to take measurement)
If you no longer have the original shade, rather than providing the Metal Receiver diameter, you may provide the Cup inner diameter and internal height (see Stage 2 to locate the cup and Stage 4 for how to take measurement)

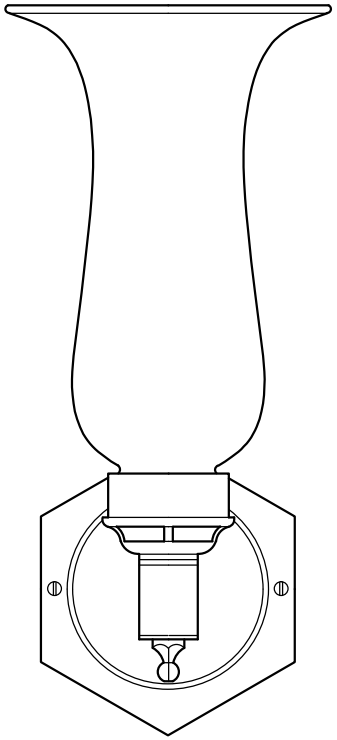
Glass Shade Styles



Osler Shade



Palmer Shade



Hurricane Shade

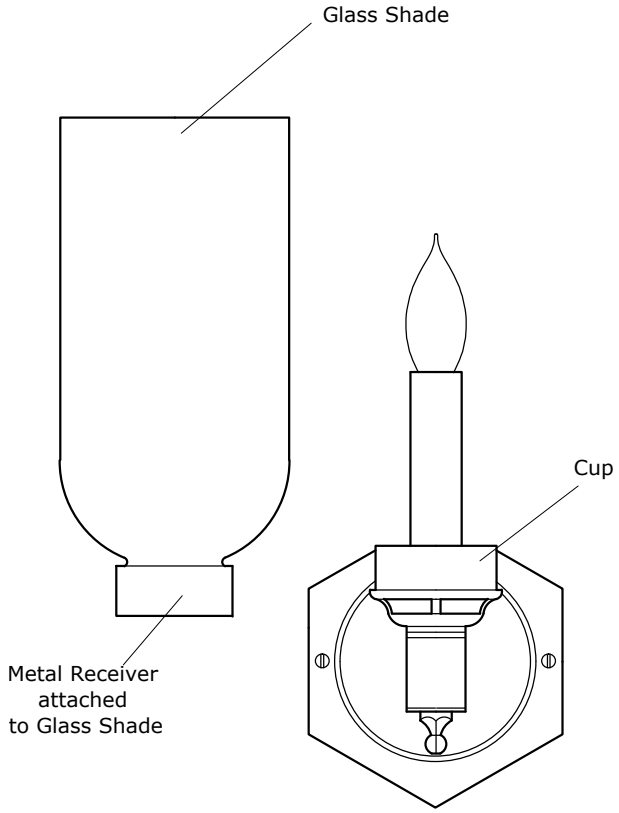
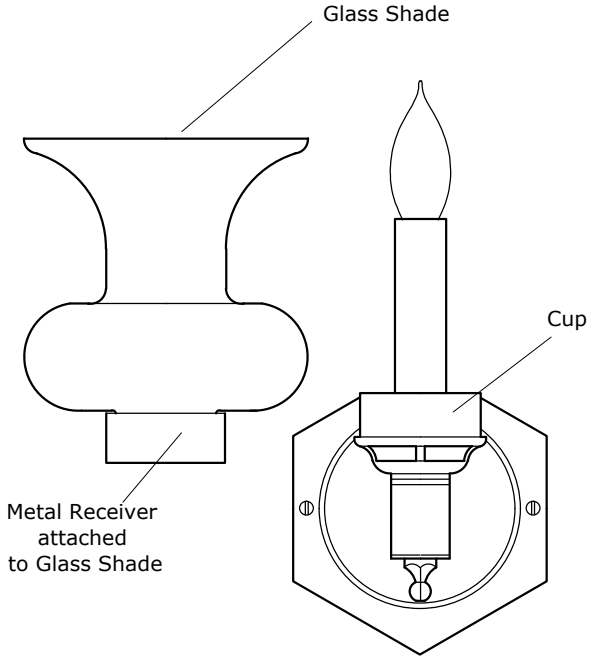
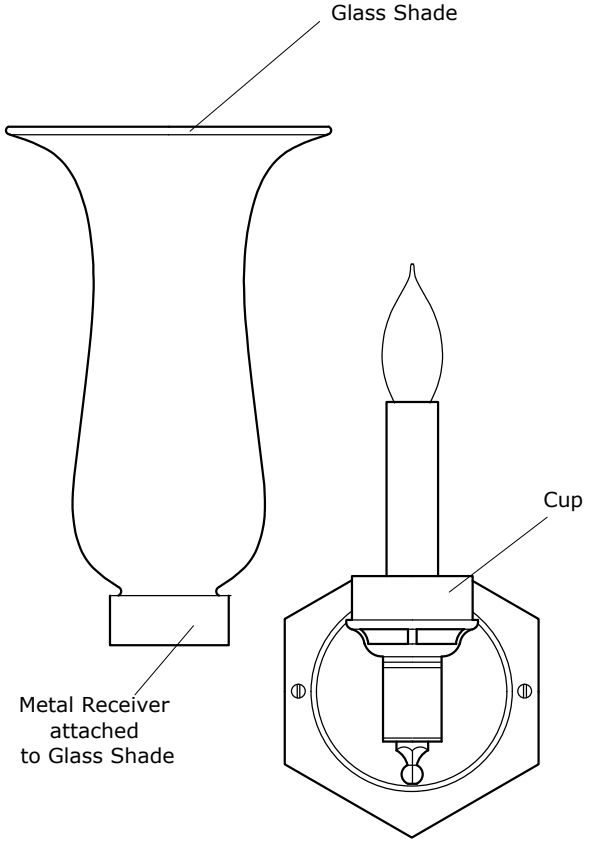
Instructions for Replacement Glass Shades : Stage 2
How to locate Metal Receiver.



Osler Shade



Palmer Shade



Hurricane Shade

- Lift Glass Shade off Sconce revealing the Metal Receiver attached to the base of the Glass Shade . The Metal Receiver sits in the cup of the sconce.
- You may either return the broken shade with the Metal Receiver attached, or take the measurement of the outer diameter of the Metal Receiver.

  For how to measure see: Diagram in Stage 3
